🌐 www.ideal-future.eu

The IDEAL Futures Teacher Academy supports education professionals in leading innovative digital technology approaches. It offers PD activities, a digital hub, and a certification framework for pre- and in-service teachers across all levels to collaborate with policymakers, educational leaders, and the digital tech sector. Grounded in the DigCompEdu Framework, it integrates human-centeredness, AI, and ethics competencies.

The Digital Hub!

Main Objectives

Support high-quality collaboration among ITE universities, PD providers, teacher employers, policymakers, and EdTech providers.

Identify key challenges for pre- and in-service teachers in the digital era, exploring policy, praxis, pedagogy, and identity within the digital leadership ecosystem to uncover transformative opportunities.

Develop and evaluate a multi-level pedagogical model that encourages transformative dialogue and a cooperative approach to digital pedagogical leadership.

Create PD content, activities, and micro-credentials to implement the model, supporting educators in digital leadership through OERs, workshops, hackathons, peer observations, transformative projects, and design-based research.

Investigate how digital technologies, pedagogies, and CPD models can support communities of inquiry, transformative dialogue, reflection, and virtual knowledge exchange in digital leadership.

Develop a sustainable model to embed transformative dialogue into 4 ITE Programmes and 4 Teacher Professional Development Activities.

Promote and disseminate IDEAL Futures teacher academy outputs across Europe.

Co-funded by the European Union
